

12 April 1951

Mr. William L. Borden
Executive Director
Joint Committee on Atomic Energy
Congress of the United States
Washington 25, D. C.

Dear Bill:

Thank you for your letter of 5 April enclosing a copy of your report on Soviet Atomic Espionage. I propose to devour it avidly as befits so fine a crime club thriller.

I hope you have enjoyed a pleasant vacation. For your private, secret and confidential information, I have just recovered from a siege of the measles.

Thank you for writing your kind letter of appreciation for the people here who checked on the report.

Sincerely yours,

Walter L. Pforzheimer
Legislative Counsel
